

Run Report 2145

8th July 2019

Hare – Fidel

Winter has certainly arrived and it was a cold night as we arrived at the large patch of grass at Morayfield. We were told by our Hare to tread carefully as there were lots of water filled potholes that we had to avoid.

Once under the safety of the metal shelter we were asked for our food orders and Dominoes menus were laid out for us to peruse. It was at this stage that we also realised the hare had taken a leaf out of our esteemed GM's book as the runs (yes there was more than one to choose from) were set out not with flour, not with toilet paper or chalk but with CARDBOARD and permanent marker.

After pizza options were discussed we then went to check the runs and there was much discussion about how we could stay safe on the country streets of Morayfield! Luckily Flower and Dog had the forethought to wear 'high vis' and 'light up' clothing to lead the pack of walkers. Soon into the walk we realised that we would be walking up and back down the same road before returning to the sports field slightly underwhelmed.

Obviously, we stunned the folks at Dominoes Morayfield or we scared the Hare off as it took him a while to return with a pile of pizza boxes.....in the meantime everyone tried to keep warm by huddling together (see Shredder and Night Owl's Charge).

On Fidel's return, it was time for him to face the music with Shredder giving the most concise report ever heard in Hash History containing negatives and positives for different increments of the run which led to Fidel feeling like he had certainly been 'shredded' to bits!! Boxy gave his walk report before Fidel was then given a 'Learner's Plate' for his efforts. He reserved more down downs for his efforts on the walk/run from other's in the group.

Vampire gave Ryvita the 'Big Prick' for her birthday and more charges of sex on, during and after the run were laid (see Heart Starter and Overproof's charge and Shredder and Night Owl's charge) so it turned out to be a pretty exciting night after all. For those that weren't having sex (or thinking about it) food was definitely the one thing on their minds!!!

Once the circle closed and our GM called that Kai was up, the pizza was devoured and the boxes used to create cardboard towers (what is it about cardboard)!!! 😊

On On,

On Heat
