

Brisbane Northside Hash House Harriers

“Like a fine wine”

Run # 2158

7 October 2019

Hare : Sherbet

It was an outstanding, loyal and gorgeous bunch of athletes who appeared on the foreshore of Brighton Park at where else? but Brighton, to participate in Sherbet's Run. Gale force winds were cursed but at least kept away the miserable little coonties that usually bite the shite out of all hardy souls who dare to venture here.

As some reprehensible, inconsiderate and grossly selfish civilians had taken possession of the only BBQ tables and chairs, the Hash had to set up under a street light, which proved to be a far better arrangement for us anyhow. **Sherbet**, who apparently keeps her camping gear in her car, whipped up tables, cookers and gear like a real catering pro.

It was well marked trail/s that confronted both walkers and runners and the walkers were thrilled to observe that they were, for a change, catered for; ie only the runners were made to make their way up the stairs and hills, therefore raiding the chips and drinks early.

Returnee Pith Head explained that he had been doing Martial Farts on Mondays... somehow he thought this was a credible excuse not to be present on Mondays.

Nokia gave the run **6/10** and **Pith Head** gave the walk **10/10**.

Honourable Awards : **Figjam** awarded this to **Pith Head** for spilling beer.

Charges: **ET** had failed to bring her own chair and demanded the GM's throne

As this weekend was the Bathurst big race weekend, so the circle celebrated one of the greatest Ford engines, the Ford 302. As **Flower** has **302** runs she was made to drink.

Pith Head had trouble with the joined mugs.... As it was his idea to rope them together, he got the dickhead song and a drink.

Boxy was heard to say that he *“**tried to act dumb at work**”* so was punished.

Singapore Sling, the designated Piss Poor Piss Pourer for the day was doing a piss poor job of piss pouring so was made to drink also.

Dog had a trial honeymoon away in the new Dog Box (? Kennel ?) with On Heat and now thinks he is calling the shots. Much derisive laughter ensued.

Flower, well known for calling anyone who burped **“Pig Face”**, now proved that she could burp louder than the rest of the pack together.... Hypocritical down down given.

Next Week's Run = Scrubber at the Spots at Lawnton.
