## HASH TRASH

It is a truth universally acknowledged that the hash trash never lies. What you are about to read either has happened, is happening now, or will happen at some time in the future. Or nearly, anyway.

Now for something completely different or to paraphrase Julius Caesar “ we walked, we ate, we fled” from the arctic high plains of Albert park Nundah. Yours truly was dobbed in by his partner Raw Liver to be this weeks scribe but I suspect mine was the only name our devious GM had put in the lucky dip pencil case so had no way of avoiding this dubious honour. Be that as it may!! Actually to say we all walked was a misstatement as Chunder led the runners by himself – having complained that he had to do all the checks himself he then gave it a 10 out of 10 on the basis that the mis-directions at checks were a modest 25 metres!! Not to be out done Flower then gave the run a 10.5 out of 10 on behalf of the walkers. Ostensibly for the toilet paper retention and wank tissues but the real reason for this generosity was a bit of a mystery until we subsequently discovered that when Flower checked the route on her app she discovered that part of the run was in the shape of a penis. Unfortunately when passing on this anatomical knowledge Smooth Rider didn’t believe her until she blew up the scale of the map to enable her to see this male appendage in all its glory!! It was actually a good run and the small lone plank bridge forced a couple of us through the muddy creek it spanned to avoid falling off it.
