HASH TRASH

It is a truth universally acknowledged that the hash trash never lies. What you are about to read either has happened, is happening now, or will happen at some time in the future. Or nearly, anyway.

Chunda must have been reading the Reviews on the Real Estate website Homely where it rates Kallangur as the 93rd best suburb in Brisbane.....bugger I'll shit shift there he thought, it would be a great place for Hash run.

So the motley crew of supreme athletes assembled on his well-manicured lawn to hear about the well-marked run and walk, but I had a bit of a problem at the creek crossing so be careful and off you go. And what a run it was, plenty of arrows (not too big and not too small, but just right) plenty of re-groups and a two way or three way check at every corner, with the pack of walkers not too far behind the 5 runners.

However after the Runners and Walkers separated most of the walkers had a issue or two following trail, the runners understood this as the walkers never help their fellow walker by crossing off the false trails (Bad Hashing) but the youngest runner pointed out that most of the walkers are Harriett's and the trail was set by a Hasher and we should remember that the other gender just refuse to take directions from a male. Query solved

After a 5.4123Km run we all re-assembled at Chunda's new abode to start the education program of his neighbours.

The beer was cold and the Covid packed chips, carrots, celery and suspicious little tubs of something.

After the circle a couple of good jokes and in to a top Kia.

Grand Mattress, called the motley crew of supreme athletes to order.
