

RUN 2242

The last minute intervention of Corvid saw the Hash relocate from chez Ten Fingers abode to Arthur Davis Park Sandgate. The pack departed on time despite being aware that Boxy & Killer were still relocating from Kallangur. Standby Hare Strutf\*\*k set a pleasant jaunt thru' the hills and backstreets of the wild Brighton/Sandgate borderlands with 3 extra loops for the runners provided by Raw Liver.

The circle started promptly before everyone had returned (i.e. sans Boxy ) as the kai was getting cold and a very rushed circle it was.

Quick down downs for the hares. An aborted charge from Fidel for Dog and Ned's nocturnal activities followed by the award off the Grub Shirt and Big Prick to Ten Fingers for expediting the venue change. Boxy emerged from the gloom of the foreshore in time to tuck in to the feed of whiting and fish.
