

Run 2310- Bridgeman Downs, Mammary Stick

To Bridgeman we boldly did go
A Hilly mammary Run to our woe
A little princess we met, lost on trail, don't forget
Chicken drumsticks and salad the go.

Amidst the sleepy, sublime, suburb that is Bridgeman Downs, a fair sized pack including the returned GM, the returnees **To and From, the Fig Jams and Sherbet**, and a visitor **Little Princess**, surprisingly, by virtue of the fact that she seemed too nice, related to **Rabbi**. It wasn't a flat run and it wasn't best marked due to a zero care factor, but we all got back in the end on what was a balmy evening, ready for the new combo of **Sex Change** and the stand-in RA **Ryvita**.

What was most surprising is that people were surprised by the bawdiness of the songs, but for the first time (Not sure if ever), the Gm brought out a version of 'here's to the Lassie with the black hairy assie', surely one to be added to the hash hymnal. In other news, **To and From** will set a Founder's Run in November, where the circle will be handed over (temporarily at least) to To and From and any other Founders who care to turn up.

The charges flowed, as did the beer/ wine/ water with ribald songs to accompany. In a fitting temporary farewell to **Rabbi and Raw Liver** who are jetting off to Goa, via Pakistan and Yemen, the GM even brought out that old favourite 'Sodalidatis veteris.....f*** off you c***'. Most appropriate if I say so myself. The hash mash comprised the healthiest tucker known to hash, being the chicken drummies and salad. A good and enjoyable (at least for me, and that's all that matters) evening.
